Grant Chart

OCT

16th 17th 18th 19th 20th 21st 22nd

Understanding and choosing Problem statement
Choosing and Ordering components
Searching related codes and theory
Testing the microcontroller
Connecting Temperature sensor and reading data
Testing the peltier module

Testing Oled and rotary switch codes
Assembling the contraption

Testing pump and cpu cooler with 12V supply

Testing Final code and implementation

Correcting errors/problems occurred while testing

Documentation

Received microcontroller peltier module and temp sensor
